

## Mantis for SAP Business One A Fully Integrated Program for a Complete Solution in Managing Warehouses in SAP Business One

In today's competitive market, companies must maintain an advantage reflected in the level of customer service and product quality and price.

WMS Module proposes to meet these needs of the Organization.

With the use of the Mantis System the following results can be achieved:

- High Inventory Reliability - the basis for efficient and quality work to ensure that the Inventory Level in the ERP Program is compatible with the Physical Inventory in the warehouses .
- Accuracy - full compatibility between customer orders and shipments sent out from the Organization
- Increased Work Pace - data storage resources (storage space, number of employees, forklifts, distribution vehicles) can achieve higher productivity.

### Mantis Logistics Vision Suite™

The product Mantis Logistics Vision Suite™ is Mantis' flagship designed to allow medium and large companies to manage and optimize their entire supply chain.

The product is based on years of accumulated experience in servicing elite companies and complex logistics challenges common among most markets where existing incidents of Mantis are found.

The product includes modules that quickly and efficiently integrate barcode systems, automation systems, material management, designed equipment for quick compiling and an open structure which enable quick and easy integration with ERP & MRP to achieve turn-key projects.

Since 2001, Mantis has invested millions of Euros in order to design and develop the third generation of the product Logistics Vision™ Suite (LV-III).

The product LV-III was launched in early 2004 and succeeded the first two generations of Mantis: LV-II in 2000 and LV-I created in 1997.

Logistics Vision™ product was created to serve large and complex logistic operations. Leading Logistic Companies like Kuehne + Nagel, Schenker, Ballauf, Kraft Foods, Master Foods, Unilever, Friesland, Danone, Nestle, Cadburys, Frito-Lay's, Diageo, Allied Domeq, Metro, Gillette, Procter & Gamble, Georgia Pacific, Philips, Miele, Electrolux, Whirlpool, Renault, Opel, Chrysler, Honda, Seat & Citroen, rely on Logistics

Vision™ for a complete and accurate management of their Logistics and Suppliers.

### Mantis has in depth practical experience in the following areas

- Logistics Services Suppliers
- Pharmaceuticals and Cosmetics
- Food and Beverages
